Simple, Powerful LMS for Schools and Universities

Product overview

NEO
by CYPHER LEARNING
Introduction

**NEO** is a world-class, award-winning learning management system (LMS) for schools and universities. The platform is known for delivering a great user experience, while incorporating all the essential tools schools need to support efficient teaching and learning.

NEO helps schools manage all classroom activities, such as creating and delivering educational content, assessing students, tracking student achievement, and promoting communication and collaboration between students and faculty.

NEO is a product of **CYPHER LEARNING**, a company that specializes in providing learning platforms for organizations around the world. CYPHER LEARNING provides a similar LMS for use by businesses called **MATRIX** and an LMS for use by entrepreneurs called **INDIE**. CYPHER LEARNING products are used by over 20,000 organizations, have millions of users, and have won several awards.
Awards

2021 Learning Excellence Awards Finalist
Recognizing the quality and diversity of learning products, resources, and services, the judges chose NEO among the finalists for the “Digital Learning” category at the Learning Excellence Awards 2021.

Most Engaging Student Learning Platform of 2020
NEO was selected as the Most Engaging Student Learning Platform in the 2020 Education and Training Awards. The program recognizes remarkable edtech companies that have improved education.

Finalist EducationInvestor Awards 2020
NEO was selected as a finalist for the awards in the category “Edtech firm of the year”. The awards celebrate the excellence and innovation in the business of education in the UK.

Best LMS Software Companies of 2020
NEO was selected as one of the Best LMS Companies of 2020 by Digital Software. LMS software reviews are the result of over 40 hours of research on 140 LMS software companies from across the web.

All Digital School Editor’s Pick 2020
All Digital School is an online community that evaluates more than 4000 edtech resources and tools. Badges are awarded to tools that are adding value to education and are helpful to teachers and students.
Product overview

What makes NEO the best solution for schools and universities

Why do teachers think NEO is an essential tool for teaching?
Teachers enjoy using NEO because it makes their lives easier. Educators save time on daily teaching activities when using NEO, by creating engaging classes fast and organizing their materials in a centralized repository.

Why do students love NEO?
Students simply have an enjoyable learning experience with NEO. Points, badges, and leaderboards make learning more fun and engaging, while collaboration tools provide a safe environment for online participation in a class. Also, being able to access NEO on any mobile device, makes students more self-directed learners and involved in academic activities even when they are not at school.
Easy to use

Our platform has an intuitive design that makes class creation easy and learning an enjoyable experience.

Easy to implement

Our platform is built to ensure a smooth implementation. Most clients configure and customize their site within a few hours, not months. NEO is very easily adopted by students, faculty, and parents. Here are the typical steps in an implementation at www.neolms.com/info/implementation.
Choose your class style

Select the type of class that best suits your teaching style, whether it's instructor-led, blended, self-paced, or micro learning. It's easy to create and deliver educational content and each class has useful features based on its style.

Built-in content authoring

Create engaging classes fast and without any technical knowledge using our built-in content authoring tool. Embed any kind of content and media including audio, video, Office documents, Google Docs, and OneDrive files.
Graphical class catalog

Showcase your classes to students using the class catalog. Each class has its own overview page with important details such as the class description, ratings and reviews, and lessons outline.

Learning paths

Inspire students to achieve goals using learning paths. Each goal in a path can represent a class, a certificate, or another path, and students can be rewarded with points and badges as they complete goals. When the path is finished, students can receive a certificate of completion.
Innovative automation

Set up rules that should be performed when students enroll in groups, complete classes and learning paths, or fall behind on their mastery levels. This powerful feature helps educators save time on teaching activities and makes learning more personalized.

Game based learning

Make learning fun and competitive with gamification by creating games where students can earn points and badges for completing tasks during class activities. You can create games for classes, paths, and site-wide games.
Product overview

Adaptive learning
Deliver better learning experiences to students by personalizing the content made available to them based on their progress and skills. Adaptive learning allows teachers to hide/show content and assessments in classes, based on automation.

How to use your DSLR

How to use your DSLR

Competency-based learning
Make sure class content is compliant with standards by adding competencies to it. Create your own or use the preloaded US Common Core and Next Generation Science standards. Track student progress on a competency-basis and get a detailed view of how students are understanding the concepts.
Complete assessment solution

Choose from 15 types of assignments such as quizzes, essays, debates, team, Dropbox, discussion, survey, and more. Grading is simplified using our reliable gradebook. You can see a centralized view of all grades and quickly add results and make changes.

Rich analytics and reporting tools

Get instant analytics on student progress and identify where students might need some extra help. See graphics with insights for different areas such as lessons, assignments, mastery, and completion. Stay informed using our built-in reports or create custom reports.
Collaboration tools

Boost classroom collaboration using interactive tools such as chats, wikis, forums, groups, and teams.

Customizable

Our platform can be matched to your school’s identity by adding a personalized logo, URL, color scheme, terminology, and more.
Access for parents

Parents can use NEO to communicate with school staff and access their children’s grades and track their progress.

Integrate your favorite tools

We offer seamless integration with the most popular third-party tools for education.
Mobile access

Use our mobile apps for iOS and Android to enjoy the full functionality of NEO on the go. Students can easily keep track of their schedule and become more involved in academic activities even when they are not at school.
Summary

NEO is a powerful learning platform that deliver a great user experience, while incorporating all the essential tools schools need to support efficient teaching and learning.
